Strategic Searching Worksheet

This worksheet is intended to assist you in learning the concepts of strategic search.

1. What is your research topic?

2. List 3-5 possible search terms you might use to find relevant sources on your chosen topic.

3. Select an appropriate databases in the Database A-Z by reading the database description for the research topic.

4. Find one peer-reviewed journal article you could consider using in your research paper. Copy and paste the APA citation.

5. What idea, source, or author do you want to find more about based on the source you just found?

6. Based on the results you found, list 2-3 other search terms you might use to find more sources.
